Director
National Photographic Interpretation Center
Washington, D.C. 20025

Dear Art,

I should like to express my appreciation to you and to the National Photographic Interpretation Center (NPIC) for an exceptionally informative and interesting series of briefings presented at NSA on 16 February 1970 by six of your photo interpreters. On short notice, the team of briefers consisting of Messrs. [REDACTED]

[REDACTED] responded to our request for a detailed description of a number of high priority intelligence subjects of considerable interest to us. The briefings were all very well organized, delivered with enthusiasm, and exceptionally well illustrated. They were very beneficial to the large number of NSA members who were in attendance at the session.

The briefers are to be highly commended for such a fine presentation.
